

GoGo

Go is a classic turn based strategy game for two players. Your goal is to surround your opponent, claiming territory and taking prisoners.

Download

To play GoGo:

1. Make sure you have [git \(https://git-scm.com/\)](https://git-scm.com/) installed.
2. In your Command Line run:
`git clone https://github.com/mathewtrivett/gogo`
3. Then:
`cd gogo`

Install Dependencies

[Python3 \(https://www.python.org/downloads/\)](https://www.python.org/downloads/) – GoGo will only work with Python3.x. To make sure you have Python 3 installed run:
`python3 --version`. If you don't have Python3, install it by visiting [Python3 \(https://www.python.org/downloads/\)](https://www.python.org/downloads/) and follow the instructions there.

[PyGame \(http://www.pygame.org/hifi.html\)](http://www.pygame.org/hifi.html) – Make sure your pygame installation is compatible with Python 3 run:
`pip3 install pygame`

[DotMap \(https://github.com/drgrib/dotmap\)](https://github.com/drgrib/dotmap) – Allows for dot notation access of a dictionary object.
`pip install dotmap`

Launch GoGo

Make sure you are inside the gogo folder, then run:

```
python3 gogo
```
